Dental School: School_Fairleigh Dickenson University
Years in Practice: 1974-2014
Type of dentist: General
In AO since: 1997

What AO means to me: Not having gone to a dental school where AO had a presence, I was in practice for 20 years before joining. Steve Kahan and Gary Greenbaum said to me, "Why don't you come to a meeting and see if you like it. Initially, I joined for the camaraderie and CE, but by the second year I was already on the board as secretary.. By becoming more involved, I gained a better understanding of the reasons why AO existed: to represent the Jew in dentistry, to combat anti-Semitism, and to support acts of charity, helping those who are less fortunate, Being the child of German Jewish refugees who were fortunate to escape the Holocaust, what AO stood for resonated with me and filled a gap that I had.

Areas of special interest in dentistry: Endodontics, Implant dentistry, Complex restorative cases
Favorite vacation: Yellowstone, because of the uniqueness and majestic grandeur of the area
Area of interest outside of dentistry or something people would like to know about me: I enjoy music, both listening and playing the flute and piano. I like going to museums to expand my world. And, I love watching hockey and the Nationals.

Important Information and changes regarding Documentation of Continuing Education.....
Recording Course Attendance with the DC Dental Society

The District of Columbia Dental Society has recently revised their procedures regarding the recording of member's Continuing Education participation. They are no longer accepting copies of Certificates of Attendance from individual members. The new policy requires you to place a check mark next to your name on a master roster of DC Society members when you sign in. At the end of the meeting, the Alpha Omega CE Program Chairman will email this list to the DC Dental Society and they will record your attendance.

If you are a member of the DC Dental Society, I need three pieces of information in order to create this roster:

First Name: __________________________
Last Name: __________________________
ADA #: __________________________

Please send this requested information to Michael Stern at dstern2478@aol.com. Remember, if your name and ADA number do not appear on the list, you will not receive CE credits from the DC Dental Society.

Thank you for your cooperation regarding this matter.

For all other members and DC Dental Society members who are also AGD members, please make sure that you sign the AGD attendance roster present at the sign in desk. It is very helpful if AGD members also write down their AGD member number. This list is the only official record of your attendance and is used to record CE credits with the AGD. Signing this roster also ensures that we have a record of your attendance in case you find yourself needing a backup during the re-licensure process.

Remember, if you did not sign the required forms, your attendance will not be recorded.

And, thanks again for being a member of Alpha Omega, dedicated to dental excellence and assisting those who are less fortunate.
Porto is the capital of the northern region of Portugal. It is known worldwide for its eponymous wine, its bridges over the Douro and its historic center. His trade relations with the United Kingdom, especially the wine trade, have largely contributed to his growth and verified the adage: "While Lisbon is beautiful, Coimbra studies, Braga prays and Porto works".
The Jewish community of Porto, flourishing until the inquisition had almost disappeared at the beginning of the 20th century. Today is a community that is reborn and loves to share its story.

It was Porto that saw the birth of the Harry Potter saga, its author JK Rowling lived there and taught English for several years. For the Muggles, Porto only evokes the sun, the wine cellars, a rich and warm cuisine or the Azulejos but for the Initiates: from Lello, the most beautiful bookstore in the world, to the Praça dos Leões through the small steep streets hung on the hills, Porto plunges us into the magical world of JK Rowling.

Porto is also parties and beaches. This is one of the few cities to offer a surf spot accessible by subway, Matosinhos offers more than 300 days of waves a year! Porto is a young and dynamic university city elected best destination Erasmus, best European tourist destination. Professor Jay Raskin, who is disabled, has experienced the benefits of the center. He said, “My wife and I have been patients of the center for 10 years. We are grateful for the opportunity to be treated in a dignified environment.”

The center recently received a grant from the state to build more treatment rooms, including one with a reclining wheelchair platform that allows patients to be treated in their wheelchair instead of being transferred to a dental chair.

Middle-aged divorcee Roberto and his septuagenarian father—Brazilian expats living in Israel—are soccer fanatics, boiling over with excitement for the upcoming World Cup in Brazil.

That is, until Roberto’s ex-wife informs him that she’s off on a business trip (to Rio, no less!), saddling him with sole care of their spoiled teenage son. She’ll be gone for entire duration of the tournament, and to his eyes it’s a disaster on par with the divorce itself, especially considering the boy’s righteous disdain for all sports. Then, a crazy idea forms…if Samuel’s mother is headed to Rio, why can’t they?

Steve Kahan, AO Past International President and Washington, D.C. chapter member, was asked by the family to provide remarks about Ben during the funeral service on March 1, 2019. Steve's words shared many interesting things that people who knew Ben may not have known. For others who did not personally know Ben, the remarks give a blueprint to describe a man devoted to his family, his profession, his community, and AO.

In the fall of 1966, I entered my freshman year of dental school. Having been raised by parents who always stressed to me the importance of affiliating and supporting Jewish causes and organizations, it was only natural that when I was invited to join Alpha Omega, the Jewish dental fraternity, I jumped at the opportunity.

It was during the second semester, of that freshman year, that the student chapter was introduced to the local alumni chapter. We were invited to an evening meeting where we would meet local members, have dinner together and listen to a scientific speaker. I do not remember what we had for dinner. I do not remember what the topic of the speaker was. But I do remember meeting a local dentist who was outgoing, who was warm, who was engaging and who I am happy to say was my friend for the next 50 plus years. I do remember meeting Ben Williamowsky.

Ben was a mover and shaker in the local Alpha Omega chapter and continued his activism on the national and international level. He served in every aspect of the local group including as its President and being honored by the chapter with its highest honor, the Michael J. Harris Award. He continued his efforts on the national level as he served on multiple committees, many as the chair, and as a Regent, overseeing all chapters in a 4-state area. Ben was often urged, by people around the country, to run for office on the national level, but always deferred, saying that there were other people more deserving. Finally, after much urging from many people, Ben agreed to run for the office of international secretary. At the time, becoming an international officer meant a 6-year commitment, on Ben's part, culminating with his service as the International President of Alpha Omega. Ben accepted these obligations enthusiastically and went on to become the most traveled International President AO has ever had. There was no chapter that Ben and Minna didn't visit.

As Ben served in the many positions that he held in Alpha Omega, over the years, two characteristics stood out more than any others. His enthusiasm and dedication were effusive. Everyone that he met was positively affected by Benny. And I, fortunately, was one of those people. Through his encouragement, I was able to follow in his footsteps and serve with him and see what a real "mensch" really was.
When we were attending the annual conventions of AO, Ben took on multiple positions. He was the first man to show up at morning minyan, he was the person who always made sure we had a Torah available for minyans, he was the guy who ever made sure that the new attendee was included and not forgotten about, and he was the guy who was still called on during downtime for a story or a joke. And we all know that Benny always had a story or a joke. We all know that Benny never met a microphone that he didn't fall in love with. Ben was the perpetual MC of AO. But what you all may not know is that Benny is the ONLY Alpha Omegan, in the 112-year history of the organization, to be an International President and the recipient of the Meritorious Service Award, the highest honor the fraternity can bestow on one of its members.

Ben was a strong supporter of dentistry in Israel and believed that it was essential that the country has two exceptional dental schools to provide practitioners for that need. It was through AO's efforts in the 1950s that the first dental school was established at Hebrew University and it was also through our efforts that The Maurice and Gabriella Goldschleger School of Dental Medicine founded by Alpha Omega was established at Tel Aviv University. From its beginning, the school at Tel Aviv was strongly supported by Ben and his good friend Ralph Rothstein, of blessed memory. They took on, as a personal goal, efforts to make sure that Tel Aviv University's dental school would survive. And through their efforts, the school, today, is a highly respected dental school, worldwide. In their appreciation for what Ben and Ralph did, the school went on to establish the Rothstein-Williamowsky Post Graduate Clinics.

Never one to NOT be concerned about his fellow man and their needs, Ben became very concerned about the plight of the Holocaust survivors in the Washington, DC area. He, personally, took it upon himself to set up a program to treat these survivors, who did not have the financial means, on a "pro bono" basis. He personally recruited the dentists in the Washington area to provide services, he arranged for laboratory services, and he worked with the Jewish Social Services Agency to screen these Holocaust survivors and assign them to the various volunteer dentists. This program has become so successful, that it has been expanded to the entire Alpha Omega Dental Fraternity and is currently actively treating Holocaust survivors in 23 cities in North America as well as 4 dental schools. In the Washington, DC area, alone, in 2018, 123 survivors received nearly $203,000 worth of dental care. The program's success was even praised by Vice President Joe Biden. Ben's actions for this program might honestly qualify him for sainthood if that existed in Judaism.

Ben Williamowsky was a rare individual. He loved people. He loved dentistry. He loved Alpha Omega. We have all lost greatly today.
Rest in peace, my friend.
Steve Kahan, PIP
