Speaker Biography and Course Objectives

Course Description:
Describe the hearing processes in the ear and brain with an emphasis on the benefits of binaural hearing for brain health, different causes of hearing loss including noise exposure (dental drills) and description of solutions currently available for prevention of hearing loss and rehabilitative strategies.

Learning Objectives:
Participants will have a better understanding of how our ears work, how to prevent hearing loss due to noise exposure and how current advances in hearing devices and communicative strategies may help their patients and family members who complain of hearing problems.

Bio:
Dr. Clare Williams moved to the D.C. area from her own private practice in Massachusetts to join HHCI in June of 2015. Dr. Williams brings enthusiasm to the workplace, enjoying helping people hear better. She graduated with her doctorate from Salus University in 2009 and with her master's degree from the University of Florida in 1985. She brings more than 30 years of clinical experience in diagnostics and hearing aid recommendations and service.
President’s Message - Jennifer B Tipograph, DDS

Hello fraters. I would like to take this opportunity to reflect on the recent passing of a friend, mentor, and amazing dentist. Dr. Gary Greenbaum was and continues to be an inspiration to me. Some of my favorite memories are when he helped me screen patients for my clinical boards and again when he donated supplies to my mission trips to help impoverished children abroad. He was always willing to lend a helping hand and was happy to do it.

After attending Dr. Gary’s funeral, I obviously felt sad but also proud. I am glad to have known him and continue to be inspired. The number of attendees at the funeral and shiva spoke volumes. I want to be remembered the way Dr. Greenbaum is remembered. Someone that is kind, respected, and loving. We will miss you and your bear hugs.

Best,
Jennifer B. Tipograph

ABOUT ALPHA OMEGA
INTERNATIONAL DENTAL FRATERNITY

MISSION
To offer dentists, oral health professionals and students a welcoming fraternal community that honours the organization's Judaic heritage, provides opportunities to attain professional excellence and promotes access to oral health care for all.

VISION
Alpha Omega envisions communities where everyone has access to oral health care and whose members can contribute to the well-being of others.

VALUES

Integrity: Acknowledging and demonstrating that our core values guide our commitments and actions
Compassion & Inclusion: Engaging all who share our core values to participate in our efforts to realize our vision
Generosity: Sharing our knowledge, skills and resources to promote oral health as well as personal and professional growth

PRINCIPLES

• Access to oral health and wellness
• Promoting social justice
• Tikun Olam (Repair an ailing world)

COMMUNITY OUTCOMES
Establishing and nurturing high-trust networks and relationships to realize our full potential for personal growth and professional achievement. Providing avenues for oral health professionals to contribute to improve the health and wellbeing of their local and global communities.

EXECUTION STRATEGIES

• Provide high-quality and diverse continuing education opportunities
• Nurture oral health care students by inclusion in alumni activities as well as mentorship by individual alumni
• Engage alumni families through locally hosted social gatherings
• Engage and welcome all dental professionals to share our vision and principles

PHILANTHROPIC ENGAGEMENT

• Raise awareness of the integral nature of the Alpha Omega Foundations, funds and trusts to the realization of our mission and vision, especially its support for dental education in Israel
• Increase awareness and advocate for improved access to oral health care throughout the world
• Partner with like-minded organizations to promote social justice and improve oral health, such as donating our time and talent for the care of Holocaust Survivors in need

Oral cancer kills one person every hour of every day. 132 new individuals are diagnosed each day in the U.S. alone, and this cancer is on the rise among people under the age of 40. When found at early stages of development, oral cancers have an 80 to 90% survival rate. Since these cancers are usually discovered too late, there is currently a death rate of about 43% at five years from diagnosis.

Why is 43% the reality? Lack of public awareness.

Peter McGee Hoffman, a 24-year-old graduate of GWU, died from oral cancer just seven months after diagnosis, unable to eat, drink, or speak. The picture of health when he was diagnosed with Stage 4 cancer, he was unaware of the warning signs. He was part of the 43%.

The 4th Oral Cancer Foundation 5K Walk/Run In Memory of Peter McGee Hoffman will take place on April 14, 2018. The only oral cancer awareness event in the Washington D.C. area, our goal is to inform the community of the warning signs of oral cancer, and raise money to help OCF spread awareness on a national level.

We hope you will consider getting involved. Please see the attached form for sponsorship opportunities, and to learn more about the event, please visit: Peterswalkrun.com or Peterswalkrun.com/Facebook.

With sincere thanks,
